

Regional Integration Dynamics in Africa

PERIA lunch seminar series

Few will contest the importance of regional integration in Africa. Yet the reality on the ground does not match the ambitious policies and political declarations. Building on its long-time work on regional integration, ECDPM took a closer look at the drivers and hurdles of the integration process and what role the regional organisations play. This work on the Political Economy of Regional Organisations in Africa (PERIA) includes five African Regional Economic Communities (RECs) and the African Union (AU). See more at <http://ecdpm.org/peria>.

To stimulate an open discussion on the dynamics of regional integration in Africa, and the implications for key stakeholders, ECDPM is organising the following series of lunch seminars at its Brussels office (Address: Rue Archimede 5, 1000, Brussels):

Date & Time	Seminar topic	Keynote speaker	Panellists
